

JUSTIFICATION FOR USE OF SOLE SOURCE CONTRACTING

To:	NAF Contracting Office	Date:	04/15/2026
From (Installation):	NS Great Lakes	Requiring Activity:	MWR Fitness

1. The service or item listed on the attached Purchase Request is only available from a single source and competition is precluded for reasons indicated below. There are no substitutes available for this item/service. The requirement is restricted to the following sole source manufacturer and/or manufacturer's dealer or representative:

Manufacturer Information:	Dealer/Rep Information:
Name:	Burris Equipment Co
Address:	2216 N Greenbay Rd
City, State, Zip:	Waukegan, IL 60087
POC:	Peter Raucci
Phone #:	847-336-1205
Email:	peter.raucci@burrisequipment.com

Note: Include additional pages to this form as necessary to provide a complete description and details for the following blocks

2. Estimated cost of the requirement:

2a. Required Delivery Date:

3. Description of the item or service required:

The required service is the comprehensive diagnosis and repair of a JOHN DEERE, MODEL: 2032R, S/N: UNIT: CS0004289 tractor. This includes addressing a known issue where the bucket moves correctly but the tractor itself fails to move. The service must also identify and repair any and all other unknown issues that could potentially cause harm to personnel or damage to the equipment. The scope of the service includes all necessary transport service fees for the tractor to and from the repair facility, as well as the provision of an escort for base access.

4. Specific characteristics of the item or service that limit the availability to a sole source (e.g. unique features, function of the item, etc.

The service required is for a highly specialized piece of equipment, a John Deere 2032R tractor, which has unique characteristics limiting repair availability to an authorized dealer. Modern John Deere equipment requires proprietary diagnostic software and tools, such as the Customer Service ADVISOR™, to accurately diagnose and repair complex mechanical and electronic systems. Only authorized John Deere dealers and their factory-trained technicians have access to these specialized tools and the most current technical manuals and service bulletins. Furthermore, ensuring the use of genuine John Deere parts is critical for maintaining equipment safety, reliability, and warranty, and these parts are most reliably sourced through an authorized dealership. The service is therefore limited to a source that possesses this specific brand-focused expertise and proprietary resources.

5. Describe in detail why only this suggested source can furnish the requirement to the exclusion of other sources (e.g. summarize the results of any supporting market research, as appropriate):

Burris Equipment Co. is the sole source uniquely qualified to furnish the required service due to its status as an authorized John Deere dealer and its established service history with the unit. As an authorized dealer, Burris Equipment Co. has exclusive access to John Deere's proprietary diagnostic equipment, software, and factory-trained technicians, which are essential for the proper and safe repair of the 2032R tractor. This specialized access is not available to general repair shops, which would be unable to guarantee a correct diagnosis or perform necessary electronic calibrations. Additionally, Burris Equipment Co. has a documented historical service record with our unit, providing them with invaluable and specific knowledge of our equipment's maintenance history and operational context. This existing familiarity, combined with their reliability and proximity, eliminates the learning curve a new vendor would face, ensuring minimal equipment downtime. The combination of proprietary access and direct experience makes Burris Equipment Co. the only vendor that can meet the full scope of the requirement to the exclusion of other sources.

6. Is the item/service compatible in all aspects (form, fit and function) with existing systems presently installed? No

If yes, describe the equipment you have now and how the new item/service must coordinate, connect, or interface with existing equipment.

7. Does a patent, copyright, or proprietary data limit competition? No

If yes, list the proprietary data:

8. If the items are "direct replacements" parts/components for existing equipment identify and briefly describe the existing equipment:

N/A

REQUESTOR

I CERTIFY THAT THE STATEMENTS AND INFORMATION PROVIDED ABOVE ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
